

# **CLASS REFLECTION: IRRIGATION**

**What crops have you eaten today?**

**Think what you could eat if you did not have  
good crops?**

**How important is water to crops?**

**What else does a human being need to survive  
and have a basic life?**

**Spend a few minutes looking at this picture of the  
water supply from a bore hole in Zimbabwe.  
What prayer could you offer about making sure  
people have a good water supply?**
