Southwark and London Diocesan Housing Association provides affordable homes for over 200 families mainly across Greater London, and aims to build more.

Over 90% of our tenants who responded to our most recent survey rate our tenancies as 'good' or 'excellent', and over 99% give our staff this rating. All our homes come up to the government's 'Decent Homes' standard. We are determined that all our tenants will be able to enjoy the best conditions possible in their homes.

We believe in communities. We encourage our tenants to be good neighbours to each other. We work closely with local churches where our properties are located.
